WORK EXPERIENCE

Cognizant

DevOps Engineer

Chennai, India

Jan 2022 – Jul 2023

- Managed **Git** & **AWS CodeCommit** repositories, streamlining collaboration, reducing merge conflicts, and improving release velocity.
- Automated **CI/CD** pipelines with **Jenkins** and **AWS CodePipeline**, cutting release cycle times by 60% and improving application response times by 30%.
- Built **Terraform** modules to provision **AWS** infrastructure, reducing setup time by 80% and minimizing manual effort.
- Implemented containerization using **Docker** and **Kubernetes (EKS/ECS)**, enabling auto-scaling and cutting infra costs by 25%.
- Standardized deployments with **Helm**, reducing environment drift and improving rollout consistency across clusters.
- Configured **ALB** Ingress Controller with **IAM OIDC**, ensuring secure and compliant external access to **Kubernetes** microservices.
- Integrated **CloudWatch**, **Prometheus**, and **Grafana** with SLO-based alerting, reducing MTTD by 40% and MTTR by 35%.
- Designed **AWS** and **Kubernetes** disaster recovery workflows, cutting downtime by 50% and strengthening system availability.

PROJECTS

- Developed Booky Plaza, a **React JS** web app with voice search that compares book prices across **Amazon**, **Google Books**, and **Audible APIs**.
- Built backend services in **Node JS** and **Python** for API aggregation and seamless data processing.
- Designed a responsive UI with **React** components and **hooks**, improving usability and accessibility.
- Integrated **REST APIs** with efficient state management, enabling faster response times and real-time search results.
