EDUCATION

Clark University

Master of Science in Information Technology

Worcester, MAS, USA

Panimalar Engineering college

Bachelor of Engineering in Computer Science

Chennai, TN, India

SKILLS

Cloud Computing | Aws | Oracle | HTML | CSS | React JS | Node JS | Git | Linux | Python | Golang | Docker | Kubernetes | Ansible | Prometheus | VPC | CI/CD | Jenkins | IAM | S3 | EC2 | YAML | JSON | Microsoft 365 | MS Office Tools |

PROFESSIONAL EXPERIENCE

Cognizant Technology solutions

Programmer Analyst

Chennai, INDIA

Jan 2022 – Jul 2023

- **Enhanced and maintained** an existing **React-based web application** by fixing UI bugs and optimizing rendering, **resulting in a smoother user experience and improved application performance.**
- **Integrated RESTful APIs** with React components using **AWS API Gateway**, ensuring **smooth communication between frontend and backend services.**
- **Worked with AWS IAM** to manage **access control** for React app resources, ensuring **secure communication between services.**
- **Involved in Agile Scrum** meetings including **daily stand-ups and sprint planning**, collaborated with other teams to ensure timely delivery of React application.

PROJECTS

Booky Plaza – Book Search & Price Comparison App

Tech Stack: React.js, Google Books API, Web Speech API, AWS S3, AWS Route 53, Axios, CSS

- Developed a **React-based web application** that enables users to search for books and compare prices across **Amazon, Audible, and Google Books.**
- Integrated **Google Books API** to fetch book details, descriptions, and pricing information.
- Implemented **voice search functionality** using the **Web Speech API**, allowing users to search for books hands-free.
- Purchased a **custom domain on AWS Route 53** and deployed the application on **AWS S3** for scalable and cost-effective hosting.
- Designed an **interactive and responsive UI** with **CSS animations** to enhance user experience.
- Optimized API calls using **Axios** and implemented **error handling** for seamless performance.

PUBLICATION

Title: *Effective Online Medical Appointment System*

Published In: International Journal of Scientific & Technology Research (IJSTR)

Year: 2019

Link: [Paper Link](#)

- Developed a **web-based appointment scheduling system** to enhance healthcare accessibility.
- Implemented an **automated booking process** to reduce patient wait times and optimize doctor availability.
- Integrated **real-time notifications** and **data management** features for efficient patient-doctor interaction.
- Addressed challenges in **manual appointment scheduling** with a scalable and user-friendly solutions.

CERTIFICATION

- Oracle Cloud Infrastructure 2024 Certified Foundations Associate
- Oracle Cloud Infrastructure 2024 Certified AI Foundations Associate
